## ***Our History***

*AAA Rental LLP as an organization started its operations almost 28 years ago as Countwell Data Processing (CDP). Starting from a Computer training institute in the early 90's, and then coming into the IT Trading industry followed by manufacturing of Laptops and finally into the Rental Industry we have achieved quite a lot.*

### **TRAINING INSTITUTE**

*As a strong observer, we observed the need of computer education for middle class segment 28 years back and launched the concept of Computer Training Institute, with a very nominal charge. We achieved a 100% success rate and became a trend setter in the same field.*

### **TIE-UP WITH THE ASSOCIATES ( CITI FINANCIALS)**

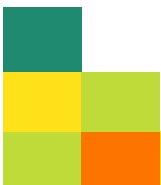

*We observed the continuous growth of computer industry and had a major tie-up with The Associates for computer selling on installment basis, again it was proved as a milestone and computer buying was no more a dream for a common man.*

### **COMPUTING ARCHITECTURE : CDP BTO NOTEBOOKS**

*As the vision of anytime, anywhere computing started, the use of Mobile Notebooks was rising. To provide end users best possible Mobile PC experience, Build-to-Order (BTO) Notebooks under the brand ACCRUE was launched. ACCRUE brand of notebooks was the result of collaborative effort involving CDP and Notebook Manufacturers ( ODM ) in Taiwan & USA.*

### **RENTAL INDUSTRY**

*Today, AAA Rental LLP is into the Rental Industry. We started with a very narrow product range of laptops and desktops only, but today we provide a very wide range of products across India. All thanks to our support and service team who have put in the extra efforts to make the customers happy and helping us earn good name and clients in the industry. To retain the quality of uniqueness we have also started renting out a complete range of DSLR Cameras and Mobiles/Tablets to our clients.*
